Detail View Front

Step 1. Flip the base upside down and rotate the feet to sit perpendicular to the aluminum base.

Included Pieces:

1. Padded Carrying Bag
2. Aluminum Base
3. Banner Rail
4. Segmented Shock Cord Pole
5. Banner Locking Pin

Step 2. Slide the three pieces of the shock cord pole together.

Steps 4-5. Pull the attached banner rail upwards to meet the top of the assembled pole.

Step 3. Place the assembled pole into the aluminum base on the floor.

Step 6. Attach the banner rail to the top of the assembled pole. You may need to tip the banner towards you to ensure you reach the banner rail to the top of the pole.

The banner should not exceed 80 inches. Do not abruptly release the banner from its full height, it will cause the banner to snap down and break. Store in a cool, dry location.
